

BALTIMORE GAS AND ELECTRIC COMPANY (BGE)

Home Performance with ENERGY STAR® Program

Rebate Worksheets

Contractor:	Customer:	Beacon HEA Scenario Number:
-------------	-----------	-----------------------------

Customer Rebate Worksheet

By submitting this application, you certify that the application accurately describes the work and associated costs and that the job meets BPI and program standards. If you have any questions, contact your Account Manager.

Air Sealing and Insulation	Rebate Requirements	Description (from contract)	Cost
Air Sealing	Initial leakage: _____ Final leakage: _____ % leakage reduction: _____		
Attic Flat Insulation	<input type="checkbox"/> Initial: ≤R-22 <input type="checkbox"/> Final: ≥R-38		
Attic Flats-Hatch	<input type="checkbox"/> Initial: ≤R-22 <input type="checkbox"/> Final: ≥R-30, durably attached <input type="checkbox"/> Final: Air sealed, gasketed <input type="checkbox"/> Final: Durable box for loose-fill insulation		
Attic Flats-Drop-Down Stairs	<input type="checkbox"/> Initial: ≤R-22 <input type="checkbox"/> Final: ≥R-10 <input type="checkbox"/> Final: Air sealed, gasketed <input type="checkbox"/> Final: Insulated box is durable, does not prevent stair operation		
Attic Slope Insulation	<input type="checkbox"/> Initial: ≤R-10 <input type="checkbox"/> Final: ≥R-19 to R-38, as space allows		
Attic Kneewall Insulation & Hatch	<input type="checkbox"/> Initial: ≤R-10 <input type="checkbox"/> Final: ≥R-13 <input type="checkbox"/> Final: Fully encapsulated insulation		
Exterior Above-Grade Wall Insulation	<input type="checkbox"/> Initial: ≥50% of above-grade exterior wall area R-0 <input type="checkbox"/> Final: ≥R-13		
Band Joist Insulation	<input type="checkbox"/> Initial: R-0 <input type="checkbox"/> Final: ≥R-13 <input type="checkbox"/> Final: Air sealed		
Water Heating	Rebate Requirements	Description (from contract)	Cost
Gas Tankless Water Heater	<input type="checkbox"/> ENERGY STAR Qualified Manufacturer: _____	Model Number: _____ Serial Number: _____	

Customer CHEA, Air Sealing and Insulation, and Water Heating Rebates

Rebate	Formula	Cost	Measure Rebate	Customer Rebate Formula	Customer Rebate
Comprehensive Home Energy Audit	Up to \$250	\$	\$	Sum, up to \$1,300	\$
Air Sealing and Insulation	15%	\$			
Water Heating	15%	\$			

Contractor Incentive Worksheet

By submitting this application, you certify that the application accurately describes the work and associated costs and that the job meets BPI and program standards. If you have any questions, contact your Account Manager.

HVAC	Rebate Requirements (If rebates are being submitted for more than 1 unit, list rebate requirements for additional units in an addendum.)	
Central A/C	<input type="checkbox"/> BGE electric customer HVAC Contractor: _____ Manufacturer: _____ SEER: _____	Model Number: _____ Serial Number: _____ AHRI Reference Number: _____

Heat Pump	<input type="checkbox"/> BGE electric customer HVACContractor: _____ Manufacturer: _____ SEER: _____	Model Number: _____ Serial Number: _____ AHRI Reference Number: _____ HSPF: _____
Gas Furnace	<input type="checkbox"/> BGE gas customer HVACContractor: _____ Manufacturer: _____ AFUE: _____	Model Number: _____ Serial Number: _____ AHRI Reference Number: _____
Duct Sealing	<input type="checkbox"/> BGE gas customer with gas furnace OR <input type="checkbox"/> BGE electric customer with central A/C or air source heat pump Cooling High Speed Fan flow: _____ Initial leakage: _____ % ductwork in unconditioned space: _____ (Must be >0%)	Final leakage: _____ Reduction: _____ CFM ₂₅ (Must be ≥150 CFM ₂₅) OR: _____% (Must be ≥50%)
Diagnostic Tune-Up	<input type="checkbox"/> BGE gas customer with gas furnace OR <input type="checkbox"/> BGE electric customer with central A/C or air source heat pump	<input type="checkbox"/> Final: Completed Tune-Up Performance Worksheet
Quality Installation	<input type="checkbox"/> BGE gas customer with gas furnace OR <input type="checkbox"/> BGE electric customer with central A/C or air source heat pump	<input type="checkbox"/> Final: Completed Quality Installation Performance Worksheet
Direct Install Measures	Measure Requirements	
CFLs	<input type="checkbox"/> Initial: Incandescent lamp in fixture used ≥4 hours/day	<input type="checkbox"/> Final: ENERGY STAR qualified CFLs
Electric Water Heater Tank Wrap	<input type="checkbox"/> Initial: Tank ≤R-12	<input type="checkbox"/> Final: Tank wrap ≥R-6.7
DHW Pipe Insulation	<input type="checkbox"/> Initial: No heat trap	<input type="checkbox"/> Final: ≥3/4" insulation on hot and cold pipes extending 6 ft. from water heater
Efficient-Flow Showerheads	<input type="checkbox"/> Initial: ≥2.5 gpm	<input type="checkbox"/> Final: ≤1.8 gpm
Faucet Aerators	<input type="checkbox"/> Initial: ≥2.5 gpm	<input type="checkbox"/> Final: ≤1.5 gpm
Water Heater Turn-Down	Initial Setpoint (°F): _____ (Must be ≥130°F)	<input type="checkbox"/> Final Setpoint 120°F

Contractor Incentives					
Measure	Measure Cost	Measure Cost Total	Measure Incentive	Measure Subtotal	Contractor Incentive
Air Sealing and Insulation	\$	\$	5%, up to \$300	\$	\$
Water Heating	\$				
Central A/C	\$				
Heat Pump	\$				
Gas Furnace	\$				
Duct Sealing	\$				
Diagnostic Tune-Up	\$				
Quality Installation	\$				
Direct Install (DI) Measure	Quantity	DI Policy	DI Payment	Payment Subtotal	
CFLs		\$5/bulb, up to 10	\$	\$	
Electric Water Heater Tank Wrap		\$40/water heater	\$		
DHW Pipe Insulation		\$18/system	\$		
Efficient-Flow Showerheads		\$18 each, up to 2	\$		
Faucet Aerators		\$6 each, up to 4	\$
