4. Once you see the Virtual Office login screen, follow the steps below to add the address to your trusted sites list. Once added, the page will reload.

## Instructions to add the SSL-VPN web address into the browser's trusted sites list.

Step 1 - Click the Internet Options item from IE Tools menu.

Step 2 - Click Security tab in Internet Options window, select Trusted sites from list, then click Sites button.

Step 3 - Add the SSL-VPN server address to the list.

Step 4 - Make sure that Enable Protected Mode is NOT checked in Internet Options window, then click OK button to proceed.

5. Enter the user name and password that you would normally use to connect to the VPN (or log into your office computer). NOTE: passwords are case-sensitive.

User Name: Password: Domain: efficienthome.local V	SonicWALL Virtual	Office			
		User Name: Password: Domain: et	fficienthome.local		

6. Once logged in, you will see the following screen. Click on the **NetExtender** icon.
